SUMMARY

Aspiring React.js Frontend developer with a strong foundation in HTML, CSS, JavaScript, and modern frameworks like React Hooks and Redux Toolkit and libraries like Tailwind CSS, Bootstrap. Passionate about creating dynamic, responsive user interfaces. Familiar with Node.js and Express.js for backend integration. Proficient in version control using Git/GitHub.

EDUCATION

PGDIIT | Mechanical Design Engineering

2013

IIT Bombay,

Mumbai, India

TRAINING

MERN | FULL STACK WEB DEVELOPMENT

Apr 2023 – Oct 2024

CODING NINJAS

- Frontend | React.js | Redux-toolkit | Backend | Node.js | Express.js | MongoDB

SKILLS

- **Frameworks/Libraries:** React.js, Redux-Toolkit, Express.js, Mongoose
- **Languages:** JavaScript, HTML/CSS, Python
- **Databases:** MongoDB, Firebase-Firestore
- **Developer Tools:** VS Code, GitHub, Git
- **Non-Technical Skills:** Communication, Team-Work, Problem Solving

PROJECTS

AI Chatbot Web app

[Deployed Link](#) | [GitHub Link](#)

Feb. 2025

- **Technologies Used:** React.js | Google Generative AI | Tailwind CSS
- **Features:** Natural Language Processing | Summarized Responses | Interactive Chat Interface

Developed a responsive React web application featuring an interactive chat interface powered by Google's Generative AI for intelligent user interactions. Integrated Google's Generative AI to deliver context-aware, real-time responses with a clean, modern UI using Tailwind CSS.

Busy Buy E-commerce Web app

[Deployed Link](#) | [GitHub Link](#)

Sept. 2024

- **Technologies Used:** React.js | Firebase | Redux- toolkit | HTML | CSS
- **Features:** Register | Login | Logout | Search | Add to Cart | Remove from Cart | Place Order

Built a feature-rich e-commerce platform with user authentication, product filtering, and real-time cart management using Firebase and Redux Toolkit.

Chatter-up Live Chat app

[Deployed Link](#) | [GitHub Link](#)

July 2024

- **Technologies Used:** Socket.IO | Node.js | Express.js | MongoDB | HTML | CSS
- **Features:** Real-time chat | Room-based messaging | DP support | Load old Messages as per timeline

Created a real-time chat app with room-based messaging and user profile picture support using Socket.IO, Node.js, and MongoDB, supporting seamless communication.
